PERFIL

I am a Data Scientist with a strong business vision, currently focused on digital transformation,

proactive, curious and a fan of cybersecurity, artificial vision and IA. I really enjoy researching and learning new technologies to find creative solutions to new challenges.

I consider myself passionate about technology and knowing how the world works, I like to investigate and that is why throughout my career I was able to develop myself in different areas, which allows me to have a comprehensive view of things (I am an eternal student).

EDUCATION

2019	Data Science Career (ACAMICA Inst).
